

Welcome Students!

Physics 102

This course requires both the textbook Hewitt, Conceptual Physics Fundamentals AND your own iclicker student remote.

Please bring your text and remote (aka “clicker”) to each class. We will use this easy system to take attendance, ask questions to generate immediate feedback, test your knowledge, and more!

You will purchase the textbook and CLICKER separately at the bookstore but [LOOK for the textbook bundle that includes a FREE \\$10 student mail-in rebate offer from iclicker.](#) This rebate is only available with specially marked, new textbook packages and can be redeemed with the purchase of a new student remote.

REQUIRED COURSE MATERIALS

(PURCHASED SEPARATELY)

①

Course Package ISBN:

CONTAINS: 0321595866

Hewitt, Conceptual Physics Fundamentals 1st ed

Be sure to print clearly - Once submitted, you may follow up with the status of your rebate (or change your rebate mailing address) by calling toll free: **1-866-800-4305**

②

iClicker Student Remote

New iclicker remotes are available standalone at your bookstore. Like a calculator, these are a one-time student purchase and may be used in as many courses as needed, with no additional charge, ever. Batteries are already included.

You can use your remote in class right out of the package: Your instructor will advise you on how they want you to “register” your clicker ID for this course. Your unique clicker ID is on the back of the remote!

WE WISH YOU SUCCESS IN THIS COURSE!
